GP1369 | Sandcastle Lighthouse (Pk/24)

MORE IDEAS...

- Use as a centerpiece and place candles all around the lighthouse.
- Go to the library or online to research and learn about lighthouses all over the world. Where is the closest lighthouse to your home?
- Use paint, markers, glitter and sequins to decorate your lighthouse.

- Plastic Table Cover

AGE GROUP: 8 and up
PREP TIME: 10 minutes
PROJECT TIME: 45 minutes

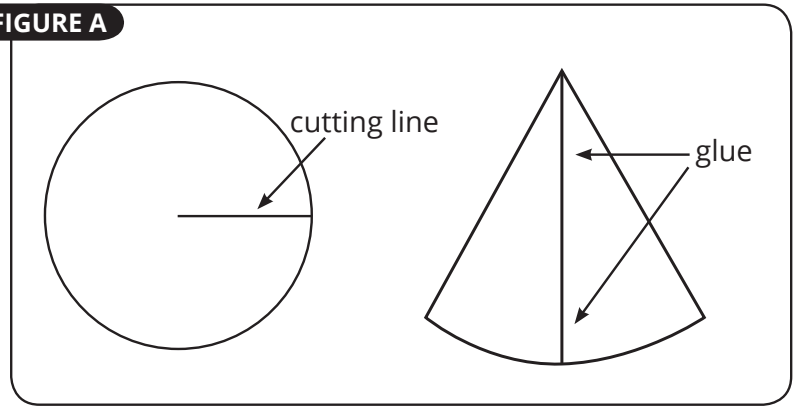
YOU WILL NEED:
- Scissors
- Containers for Paint and Water
- Paper towels
- Pencil (optional)

GP1369

INSTRUCTIONS:

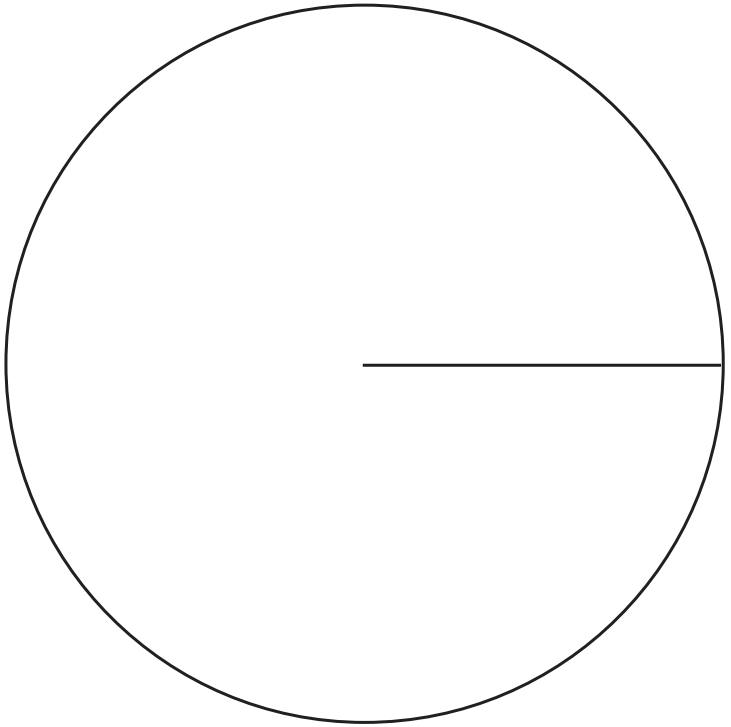
1. Select a cone and paint it white with a foam brush. Let dry.
   TIP: Add small amounts of water a few drops at a time to the paint. This will help it flow better.
2. Cut out the pattern for the roof on page 3. Trace onto a piece of construction paper and cut out. Design your own windows and doors and cut them out of the construction paper also.
   TIP: Sketch out your doors and windows with pencil before your start to cut.
3. To make the roof: Bend the construction paper circle, overlapping the ends until you form a cone shape (see Figure A). Glue the overlapped edges with white glue bottle. Let dry.

FIGURE A



4. Glue the roof, windows and doors onto the painted cone. Let dry.
5. Glue the shells around the base, windows and roof. Let dry.
   TIP: To avoid drying time use hot glue or glue dots.
6. Squeeze out some glue from the bottle onto the areas you want sand, then brush the glue out into a smooth layer on the roof, windows and the door. Sprinkle sand onto wet glue. Shake off excess and let dry.

PATTERN FOR ROOF



Helpful Hint: To make your lighthouse look more weathered, brush small amounts of glue and sand all around your lighthouse's edges.
