GP2101

PROJECT INSTRUCTIONS:

1. Lay all materials out on clean work surface.
2. Insert wood dowel into pre-punched hole on back of your car.*
3. Using the paint set and brushes, begin painting your car. It is easiest to paint the background first. Allow each color to dry slightly before adding another. This will prevent the colors from blending into each other.
4. Allow to dry completely.
5. Cut photos to fit the windows of the car. Attach with tape on back of frame.

TIP: While paint is still wet, add glitter or sequins to enhance your design.

BEEP BEEP!

*This serves as a stand for your frame plus it's a great holding point while you decorate your car.
