GP1789

INSTRUCTIONS:

Your dinosaurs may be painted in various ways. Try some of these options:

1. For a realistic look, try adding some white or black to your paint color to give you shades of the same color.

2. To create uneven, skin like textured look, try using a crumpled paper towel to apply the paint instead of the brushes.

3. Create a dinosaur Circus by painting the dinosaurs all sorts of bright colors- stripes, polka dots, lots of different color areas, to make a clown like effect.

The best method is to add detail to your dinosaur by letting the base coat dry and then adding additional painted areas. For small areas, try using the back end of the brush dipped into the paint and dotted onto the dinosaur.

4. Glue painted legs onto dinosaur body. Let dry.

MORE IDEAS...

Create a diorama using your dinosaurs and other materials to make a prehistoric setting.
