GP2040

PROJECT INSTRUCTIONS:

1. Take out all pieces of kit. Spread out tablecloth on your work area. Think of a style design for your shark. Use your imagination and make it realistic or far out funky.

2. Paint your design, beginning with the background colors. Then, after the paint has dried, you can add detail painting. Allow to dry and your shark is ready for adventure!

3. Rinse brushes immediately and dry with paper towel.

TIP: Do not apply paint inside the carved notches, so the shark will remain flexible.
