PROJECT TIME: 30 minutes

YOU WILL NEED:

- Scissors

RE532

INSTRUCTIONS:

1. Fold the cord in half. Thread the fold through the hole in the cross bead and pull down tight. See “Diagram A.”

2. You will use both ends of the cord together at first. Thread on one large unfinished wood bead and three small unfinished wood beads. Finish this section with one more large bead.

3. Now, split the two cords away from each other. Starting with one cord, thread on ten painted small beads, one large bead, ten small painted beads, etc. until the desired length. Do the same for the other cord ending both sides with a large bead. See “Diagram B.”

4. Tie the ends together near the last bead and trim the ends of the cords. These short ends may be tucked back down inside of some beads near the knot to hide the ends. If needed for strength, a small dot of glue may be applied to the knot.
