GP2134

INSTRUCTIONS:

TIP: Design your work first on a piece of paper with pencil so that you have a concept in mind.

1. Using the tip of the scratch tool, scratch away the black to reveal the colors underneath. Scratch the outline of the object first and then scratch a design into the object. Use short strokes, long lines, shapes or any style. The possibilities are endless.

2. When finished, you may need to carefully brush off the design to release any black that was left behind.

3. Hang your door hanger and enjoy!

Safety First!
This product may contain silicon gel packets. Remove prior to use!
