GP1729

INSTRUCTIONS:

1. Paint the background color on the snake first, if you'd like.

2. Paint detail markings on the snake. Remember many snake species are brightly colored. Let dry.

TIP: You can use permanent markers to add details to your snake, too!

These wooden snakes are designed to be flexible. If you hold the snake by the tail, you can move it back and forth by shaking your hand.

MORE IDEAS...

Create a snake habitat and display your snake as part of a nature or jungle scene.
