## S&S® Toss 'n Talk About™ Anger Management Ball

Item # 17514

The rules are simple and can be easily modified to fit individual use and/or functioning levels. Players toss the **S&S® Toss 'n Talk About™ Anger Management Ball** back and forth. When the ball is caught, the player must answer the question or perform the action related to the statement directly under his or her right thumb. If the ball is caught so that the player's thumb is on a statement or quote, the player simply reads it and then tosses the ball to the next player. If player's thumb is touching more than one statement, the player may choose which one he or she would rather use.

### Variations:

1. Allow other players to elaborate on questions or add additional thoughts and/or feelings related to the response.
2. Turn the game around by allowing the player who catches the ball to assign any other player in the group to answer the question or perform the action.
3. Can be as fun as playing musical chairs, if you use music! Keep the ball moving from player to player while the music is playing. When the leader stops the music, the player holding the ball must answer the question or perform the action that's listed under his or her thumb.
4. If tossing or throwing the ball creates tension or stress, you can slow the game down by rolling the ball from player to player.
