Stained Glass Frames Kit (Pk/24)

MORE IDEAS...

Add backing to the frame and hang with string to make a mobile or window decoration.

Start with color diffusing paper and color it with liquid watercolor. Allow to dry and then mount it on the frame.

AGE GROUP: 4 and up
PROJECT TIME: 30 minutes

YOU WILL NEED:
- Scissors
- Pencil

GP2091

INSTRUCTIONS:

This kit may be done in many different ways depending on your preference and the abilities of the group.

Method I (Level 1) Advanced: Specific Color Areas with Markers

1. Choose 2 or 3 color papers for your design and punch out the black frame piece. Using the black frame piece, trace a pencil line lightly around the area you are over your first color paper. This forms the inside edge of the shape. Cut out this shape, making the cut line to the outside of the pencil line by about 1/4 inch. Glue that shape to the black frame with only a small amount of glue. Continue with the other areas and other colors for your design.

2. After all the colors are glued to the frame, use the markers to make design highlights inside some of the color shape areas.

3. Allow time for the glue to dry.

Method II (Level 2) Intermediate:

1. Use the same method as above, but without the marker coloring. The markers may be used to add realistic detail or to add random patterns, or abstract designs to your pictures. This is the most creative of the 3 methods.

Method III (Level 3) Basic:

1. Punch out the black frame.

2. Take one sheet of colored paper as the base. Cut or tear pieces of other colors to add random shapes to your base paper. Glue them down to the base paper.

3. Place glue on the back of the black paper and press down onto your colored paper collage.

4. Allow time to dry.
