9460 GatorSkin® Square Ball

pitching (rolling) the ball to the hitter (kicker). Saves times and makes it easier for younger players to hit a stationary target.

Volleyball ï Use in place of any standard volleyball. All other rules remain the same.

Hurdles ï Stack the 1, 2 or 3 levels high.

Dodgeball ï Use in place of your regular dodgeballs.

Team Building Stacking ï Form teams of players, blindfold (use W8742) some or all but one of the players on each team. Spread out the GatorSkin Square Balls inside a room or area. The non blindfolded person calls out instructions to their blindfolded teammates, who gather the ñballsò and try to stack them as high as possible in a fixed amount of time or race against the other team to stack a fixed amount of cubes. For added difficulty, require that the cubes be stacked in sequence. For example, the side with a one on it on the bottom facing up, with a 2 facing up on top of the one, etc.

Obstacles ï Use as obstacles to go around or jump over as part of any obstacle course.

Knock Down Targets ï Stack six in a pyramid shape (3 on the base, 2 in the middle and 1 on top). Place a regular kick ball about 20 feet away and see how many kicks it takes someone to knock the 3 square balls off the stack!

Dice ï Use in any dice game, play super jumbo Yahtzee, place at any station to determine how many repetitions of any activity someone needs to do.

Bowling ï Set-up pins about 10 to 15 feet, add a foul line about half way to the pins to prevent playerôs from throwing the ñballò at the pins. Players then slide or roll the ñballò as usual.

Cones ï Use these in place of anywhere you would use a cone, they are softer, safer and heavier than most cones, so they will stay in place.

Goal "Post" ï Use 2 Square Balls to designate a goal.

Math Test ï Roll 3 to 6 of the dice and have players or teams race to add, subtract or multiply the numbers first.

Soccer ï Use the square balls to add some crazy bounces and a fun change of pace to your soccer game.
